

# Art I Supply Letter and List –Please Read

Dear Parents:

Welcome to Art I. This year we are offering you a choice of purchasing supplies individually from local retailers/art suppliers, using the attached list, *or* you can write a check to Marcus High School and we will supply the consumable art materials. We are offering the benefits of bulk purchasing to the parents. These include:

1. Eliminating the need to run from store to store in search of the right materials. With all schools requiring that students buy their supplies within the same time period, stores often run out of materials.
2. Lower costs. In the past, some students have reported spending in excess of \$100 for Art I supplies. The cost of the consumable supplies through the Art Department is \$40, due by **August 29th.**
3. Students will have their supplies in class when they are needed. Without this option, students will be responsible for storing, securing and having the proper supplies each day.

It is preferred that the materials be bought in bulk through the school, as it insures that each student will have quality materials available. Some supplies will be provided as a class set, with students sharing the materials. If this option is chosen, checks should be made out to Marcus High School. ***The check must have name and address printed on the check, so no temporary checks please.*** A receipt will be issued to the student at time of payment. If there is a financial difficulty, please contact your child's art teacher by phone or email to make other arrangements. Each email address can be found through the Marcus home page at <http://mhs.lisd.net/finearts/art.htm> **We all have new phone numbers as well, Marcus High School phone is now: 469-713-5196.**

Thank you,

Marcus Art Teachers
